92. Yo

Welcome

America : So uh, hey . Welcome to uh * takes out paper* Oh - welcome to my countryhumans empire. Uuuh , here Afandomtale shares his view of the fandom. That includes new designs , Headcanons and what ever else. Though sense his drawling skills are sh*t , and his descriptive skills aren't as good either...he will be trying they're best to describe how we look. Yes are skin is still the colors of our flags. Thank you for listening, now good bye.

Me : Alright, let's go get some Wendy's .

BELOW IS AN UPDATED VERSION, WRITTEN MAY 1ST 2022:

Good lord this book is so hard to re read what was i thinking😭😭

um, i will be keeping the old introduction here so u can read it but it has been slightly changed. Just letting you all know some things in this book have been changed and or removed, because what the hell was i doing😭

just wanted to let you all know i'm still (barely) in the CH fandom and i aplogize for not posting as much anymore <\3

I will try to make it up to you guys in the future, that's all. Thanks for reading :)

oh yeah i'm deleting some chapters bc literally wtf 💀

Here have some fanart

[image] [image] [image] [image] [image] [image] [image] [image] [image]

While my imagination is working on countryhuman designs . Have some lovely fanart .

Headcanon #1

The countries have hair. Why ? *Shrugs* they look cute with hair .

Countryhumans with hair

[image] [image]

It was the only pic I could find where America had hair.

Look closely you can see his hair .

Those were the only pics I could find (*□*;) sorry.....

Russia Headcanons

[image]

This will not include anything Rusame . I am still thinking about how their relationship works.

1. Russia is an introvert , not shy or socially awkward. He just doesn't like being around alot of people *or countries* . He prefers to stay at home .

2. He knows he seems like he doesn't care or doesn't give a sh#t about anybody , so now he tries to be more friendly towards people/ countries he knows .

3.His eye color *points to picture*

4. He has a good sense of humor.

5. He's really chill actually , but if you talk about his past/history around him or insult him for it . You may start a fight that he didn't want .

6.He likes singing

That's all for now folks

2024 update: If you are a returning reader and you notice that some stuff has been removed, that's because the author died of cringe and felt like certain things were a bit stereotypical or just straight up offensive (and sometimes just...dumb.). So...yeah! For new readers, click off. Right now.

America headcanons pt.1

[image] [image]

1. America eyes *points to picture*

2.Really stingy with his food unless he really likes you (me core)

3.Since America is home to quite a wide mix of cultures I thought that it'd make sense if he could speak/understand them to a certain degree, but he keeps the fact that he can understand them a secret for some reason. He can also mimic some accents.

3. He always carries a bottle of beer around with him just to keep him sane if something happens.

4. He loves birds.

5. Really good at grilling. Like, concerningly good at it.

6.The only countries he is shorter than are Russia and Canada.

7.He's kind of like a steven universe fusion, and the states are sort of like his internal monologue.

General Headcanon

The countries have parts based on their national animal.

Rusame headcanons

1. Russia takes America's sunglasses and holds them high up so America can't reach. He likes doing this because he loves looking at America's eyes .

2.They like watching movies together.

3.Holding hands ? Naw , piggy back rides are better.

America and bahamas

[image][image]

So I was watching some CH videos. Then whatever I have left of my motivation to draw was sparked. So I drew Bahamas and America.

I don't usually color my drawings. So I'm sorry if it looks bad-

I was going to leave it colorless, but then my mother said I should color it.

Surprisingly I actually like how these turned out,but I'm pretty sure that in the next few hours I'll be hating on my art again.

America: I don't eat them because they're shaped like dinosaurs, I eat them because they're flicking chicken nuggets!!!!

_____

America: Dabi is the very definition of burnt chicken nugget.

Japan, wheezing: Leave Dabi alone.

_____

Canada: America, the council has made a decision.

America: I recognize that the council has made a decision, but given that it is a stupid ass decision I've elected to ignore it.

_____

Countryhumans talking about my hero academia? Why not.

Same crack level as Hetalia

[image]

This book is getting too long-

whatever, have countryhumans doing stupid stuff-

~~~
~~~

America: there is nothing about this that is fine.

~~~

America: This is why i can't be nice to you.

Random Thoughts

•Bahamas as Foxy from Fnaf

•Germany dressed as Mickey mouse.

•A countryhumans musical

•Countryhumans crossovers with hazbin Hotel/Helluva Boss.

•America being taken over by some kind of alien parasite (Venom anyone?)

•Bahamas biting everyone. For no reason.

Random thoughts 2

[image]

Anyone ever had that moment, where your just minding your own business having a good time. Then out of nowhere a thought crosses your mind

"*y'know, (insert pairing) is pretty cute."*

And now you automatically have a new ship.

Well that just happened to me

I guess I ship gerame now.

Purely for wholesomeness and Nothing else. This ship is adorable in my opinion-

Oh and before I end this random thoughts chapter. Apparently Bahamas x China is a thing. Lol.

"Are you okay?"

America: I don't know what kind of magic this is, but when you're on the verge of tears and you're trying to hold it in. Then someone comes out of nowhere and ask you if you're okay. Then the tears magically start to fall.

Canada: Are you okay?

America,crying: No, not at all.

What's a title?

i'm feeling creative.

Give me random things to personify .

y'know, like CH, Apphumans. Planethumans, etc.

I started making a personification of 2020. :)

Just a quick headcanon

Bahamas is 4'11.

That's all

Ask me questions!

Wanna get to know me better?

Ask questions In the comments and I'll try to awnsers them as best I can!

The end

Haha did I scare you?

This book is getting long but I have nothing better to do so-

I'd make other books but like motivation and Inspiration always leave at the last second, writers block is annoying as heck. I'm probably never gonna end this book-

I'm hungry. I need to work on my Undertale au-
What am I doing with my life

Quick question

[image] [image]

So uh- Hi there

Afandomtale back again with another CH empire chapter-

Just wanted ask y'all something.

Alot of people have a Nick name for their followers, and I've been thinking. Should I give y'all a Nickname? If so, what would y'all like to be called?

Uh, I feel awkward. Thank you for your time .

List of aus (Plus an oc-)

So I have alot of CH aus, I guess that's just my thing now. Making CH aus- oh and pretty much all these are about America sorry-

👑👑👑👑👑👑👑👑👑👑👑👑

1. Cyber! AU

An au where after a battle, America is left hospitalized. The only way to save him is to turn him into a robot Android thing-

2. King! AU

In this au, America is a thief who one day finds a crown and gets corrupted by its power.

3. Have you heard the legends? Au

I haven't really named this au yet but we'll go with this-

In this au, Russia, germany, Ukraine and Belarus go on a trip to the woods. It just so happens that the woods they're in aren't any normal woods. These woods have secrets. (I'm too lazy to describe more, I worked really hard on this au when I was first making it)

👑👑👑👑👑👑👑👑👑👑👑👑

America: Hey fandom about that king au- what the hell is happening

fandom is evolving!

America: She's a pokemon??

Fandom evolved into...

America: I just wanted to ask a simple question, I didn't want to Question science-

__Empire!__

Empire: Oh- Well that was fun!

America: The frickle fracking what-

Empire: Hello!

America: Uuhhh, JAPAAAAAN-

Japan: BOOM! WHAT- oh who are you??

Empire: My name is empire! I'm Fandoms new persona!

Japan: Ooohhh, so when irl fandom makes a new persona she evolves like a Pokemon!

America: How does that make sense-

Japan: It makes plenty sense, you're just dumb .

America: I-I mean your not wrong but damn-

Japan: I'm sorry if I hurt your feelings- Anyway! Tell us about yourself empire!

👑👑👑👑👑👑👑👑👑👑👑👑

Questions for both me an empire are welcome! I enjoy answering your questions ♥

Well, see y'all later-

owo whats this?

Hi

[image]

Rusame has become a comfort ship because when i was in my CH phase literally the only content i consumed was rusame.

My CH phase was a time where i could actually enjoy things wich i have found hard to do recently, so whenever i see rusame or anything countryhumans related i get kinda emotional because i remember how happy i would be to finally get home from school so i could watch CH animation memes or read fanfictions-

anyway, how did you get into the fandom :)?

what do i do with this book now👫

[image]

The title says all🗽

Have this pic of one of my gacha ocs ig

Yo

I posted a new ch headcanons book, this one is finished.

1. At the maximum amount of chapters wow☠

2. it has been quite awhile since i've actually indulged in countryhumans and i have a new set of ideas and headcanons for the countries because my thoughts and stuff have changed👍

3. Reading over chapters and as some of you may see i absolutely cant stand the cringeness 😩

anyway yeah thats it, have a good (time of day) ♡´･ᴗ･'♡
